The results, collated by the RAC Foundation, also revealed that the percentage of motorists of any age caught speeding in the last three years has fallen to just over a third. But motorists aged 24 to 35 remain some of the most likely drivers to be caught speeding. And, in parts of the country, the number of vehicles caught speeding is more than double that recorded on busy A-roads. The report, Speed Camera Alley, examined the findings from nine of the UK's police forces, including the Metropolitan Police, the Lothian and Borders, the Northumbria, Essex, Kent and Leicestershire, South Wales and Merseyside. The research reveals that in the UK, more than 41,000 red-light cameras and 40,000 speed cameras are now installed, with another 14,000 speed cameras and cameras for random breath testing being installed or planned. In 2008, the year for which the most recent figures are available, a total of 516,646 vehicles and 507 people d4474df7b8
