
Adobe Lightroom Piratebay

freevar: True, but you can just as easily make a temporary folder to put the files there it says:

This means that the folder

"2014-03-12-2013031458-UTC" is not accessible. theadmin, on the ROLES folder where I store the location of the local files it

says: theadmin, freevar: Try with a real space

*real name freevar: Which account do you have the files on? freevar: as the root user?

theadmin, yes freevar: Oh. Who is that?

freevar: seems it wants you to log into the home you are using freevar: And the home folder you are trying to access is owned by whom? freevar: this is what im getting at. theadmin, I have sudo access on this account, my username Dr_Willis, I am the owner freevar: Okay, try accessing it as "root" then freevar: as the roo user? ;) log into the user you want to use and ls -l the file Dr_Willis, I guess that is what I am doing, my username is associated with the sudo account freevar: Then use sudo. Dr_Willis, I am logged into my desktop with my username, trying to get to the ROLES folder to view the files, I am trying to get into the /home/freevar/roles/2014/

folder freevar: try 'su' at the console. see if that works
Dr_Willis, working fine! thank you
freevar: yes. su is the proper way to get to root
freevar: Don't use su, use sudo, it's more secure
theadmin, I will, but I get
