Q: AngularJS modules not finding ngResource I

have a single page app in AngularJS and everything was working perfectly until I went to add in the ngResource module. Now whenever I navigate to a route that requires a resource the whole app will error out with: `TypeError: Cannot read property '0' of undefined` at `Error (native)` at `NgModel.NgModelController.$get.NgModelController.validate (` at `Array.forEach (native)` at `forEach (`
