A: Open Source: Wufoo: Freeware: FbReader: Commercial: Adobe Contacts: iPad Contacts: Q: Android - How to install this JSON file without permission denied? I tried to implement InApp/OLldb in my Android application and it works fine when I open the app. But, when I download the same JSON file to my mobile phone, I can't open it because Android shows permission denied error. How can I install it without permission denied error? For example, here is the code for that: try { String error = getOutputStream().readLine(); Log.d(TAG, error); } catch (IOException e) { e.printStackTrace(); } OutputStream() is a class that reads and write from and to another server. When I open the app, the string error is empty, but when I download the file to my mobile phone, error appears like this: E/Buffer Error (10): at 1d6a3396d6
