Home Care Sleep Screening Devices Market Outlook, Growth Factors, Industry Share, Size by 2026| Straits Research

With the changing lifestyle and growing urbanization, people around the globe are facing numerous health issues like obesity, diabetes, and difficulty in sleeping, among others. In the past few years, the prevalence of sleep disorders has significantly increased, which can be attributed to a range of physical and psychological habits and activities. Moreover, lack of sleep takes a heavy toll on both physical and mental well-being of an individual. To address this issue, many players active in the market are offering several sleep monitoring solutions such as home sleep screening devices, which enables effective diagnosis of sleep apnea and insomnia at home.

Home Care Sleep Screening Devices Market

Global home care sleep screening devices market is expected to reach USD 550.17 million in 2026 from USD 319.65 million in 2018 at a healthy CAGR of 7.1% during the forecast period 2019–2026.
