ARCHLITE ASSIGNMENT
HELP

Introduce the section with a subheading

While looking for Computer network assignment help you should primarily have basic knowledge about what is networking. Networking is a topic of computer science in which we learn how computers and their resources like printers, file servers, etc are communicated with each other. In a simple way, computer networking is a set of computer system and other electronic devices which are connected to each other and shares data and information. The term computer network is a set of interconnected devices. The medium of the connection can be wired or wireless. In present days the internet is growing very fast so the computer network contains millions of computers, smartphones, servers, and other gadgets are joined together.

Archlite Academic Writer is the best assignment help service provider in the UK. To help you receive a well-written and highly researched assignment, we have professional writers on board who hold excellent subject knowledge and impressive academic writing skills.

There are various types of computer networks like LAN, MAN, WAN, and PAN. we will discuss these types in the below section of computer network assignment help.

- 
1. **LAN(Local area network):** LAN is used for a small geographical area like within 1 kilometer, for a small number of people. It is used in colleges or universities, schools, offices, etc.
 2. **MAN(Metropolitan area network):** This type of network is used to connect devices in an area larger than LAN but lesser than WAN like approx 40kms. It covers areas like a block of the city to an entire city.
 3. **WAN(Wide area network):** Wide area network is used for a large geographical area, for a large number of people. It is a combination of both LAN and MAN. This network provides high internet speed.
 4. **PAN(Personal area network):** Personal area network is used to cover very small areas like a room within two or three meters to exchange data between one or two devices.
- 

Important Topics We Cover in Computer Network Assignment Help
