## 2. BRISBANE SET TO SCORE WITH BUMPER 2023 MAJOR EVENTS CALENDAR

Brisbane's biggest line-up of major events in more than three years is forecast to see over one million fans flock to the city in 2023.

From sporting showdowns to arts, music and cultural festivals, Brisbane Economic Development Agency will support more than 30 new and returning events, tipped to inject \$150 million into the local economy.

International events including the FIFA Women's World Cup, Australian PGA Championship and World Science Festival, together with events born and bred in Brisbane including NRL Magic Round, Torian Pro and Brisbane Festival, continue to grow the city's reputation as a global events destination.

The jam-packed calendar features a range of free and affordable events, from Curiosity Brisbane to BIGSOUND Country, complementing the city's regular schedule of free events including City Sounds and Gigs and Picnics.

Lord Mayor Adrian Schrinner said major events are a mega driver of economic benefit to Brisbane, encouraging visitors to stay longer and support local business.

"Major events are the perfect excuse to make a weekend out of coming to Brisbane, creating a buzz across the city, filling precincts, hotels and restaurants with tourists and stay-cationers alike," Cr Schrinner said.

"This year's jam-packed major events calendar is set to create some serious FOMO for travellers wanting to see the best events in Australia this year.

“Of course, we are most proud to support our Brisbane born and bred events, which continue to grow in popularity with fans from across the country.

“Culture and sport are cornerstones of the community and with the rising cost of living biting, we’re proud that there are plenty of free and affordable events in the mix too to be enjoyed by everyone.

“We are seeing more and more mega events coming to Brisbane and expect that to continue growing in the lead up to the 2032 Olympic and Paralympic Games.”

Brisbane’s action-packed 2023 Major Events Calendar features in the city’s latest destination campaign, asking visitors “It’s all here, why aren’t you?”.

Anthony Ryan, CEO of Brisbane Economic Development Agency, said the campaign will tease travellers by highlighting the exclusive events only on offer in Brisbane.

“This year, Brisbane is showcasing an incredible and exciting line-up of major events that you simply don’t want to miss!” Mr Ryan said

“We saw sell-out crowds last year for many of the city’s major events and expect their popularity to peak again in 2023.

“Attracting a diverse calendar of stellar sporting and cultural major events to the city is a key priority as we prepare for Brisbane’s biggest and greatest global event in nine years.”

# 3. The 6 best reasons to live and study in Brisbane

Interested in studying in Australia? Let's introduce you to Brisbane, the capital city of Queensland - one of the largest states in Australia. Home to 2.6 million people, the city is a melting pot of multiculturalism and is famous for its unique combination of big-city attractions and friendly, relaxed locals.

There are always plenty of things to do in and around Brisbane: shopping in the central business district, day trips to the beaches on the Gold Coast or relaxing on a warm summer night by taking in the views at Howard Smith Wharves.

Brisbane's liveability, affordability, accessibility and ease, coupled with friendly and welcoming locals, makes Brisbane a top study destination for international students. Here are the 6 best reasons to live and study in Brisbane.

## **Warm climate**

Queensland is called the Sunshine State for a reason - with clear blue skies illuminated by 240 days of sunshine each year, Brisbane's weather is almost always warm and sunny. Summer averages are lower than 30°C, and winter minimums only reach 11°C, making it perfect for those who love the outdoors and days by the beach.

The weather makes it easy to plan a day trip to one of the picturesque locations in or around the city, and the warm evenings are perfect for a night out or taking in views of the Brisbane River. Queensland's winter months are much warmer than most areas in Australia, with dry and pleasant days.

If you want to make the most of your time in Australia by exploring your new city to the fullest, without gloomy and rainy days keeping you inside, Brisbane is a great option.

## **World-class education**

The most prestigious tertiary provider in Queensland is The University of Queensland, currently ranked top 50 in the world and second in Australia (according to Aggregate Ranking of Top Universities).

UQ's degrees are globally renowned, with some specialisations recognised in the top 10 worldwide, for example, Hospitality and Tourism Management, Nursing, Biotechnology and sports-related subjects.

Within Australia, UQ was ranked the best in Australia for Environmental Science, Aerospace Engineering, Biomedical Engineering, Biotechnology, Sports-related subjects and Food Science and Technology

With over 380 degrees on offer, UQ provides opportunities for many future career pathways.

## **Strong employment sectors**

As an international student, you may be eligible to work while you're studying in Brisbane. There are several sectors that are particularly suited to part-time work, such as hospitality, retail and tourism. Balancing your study load with a job can mean boosting your employability, building your professional network and gaining new workplace skills.

There's also a high chance that you can find full-time work after you graduate. Queensland's unemployment rate in September 2022 was 3.7%, amongst the lowest the state has seen since the 1970s. A low unemployment rate is an indicator of good work prospects, which will make it easier for you to find a job once you graduate.

At UQ, the Careers and Employability team are on hand to help you on your employment journey. You can access seminars and career advice, especially curated for students. With all this support, you'll be ready to start your dream career right after graduation.

### **Affordable cost of living**

The cost of living is currently on the rise in all parts of the world. Yet, compared to many other cities in Australia, Brisbane is a more affordable place to live, especially considering it is the third-largest city in Australia.

Austrade has created a useful Cost of Living Calculator on the expenses you can expect living in Brisbane.

With a more affordable cost of living, your student budget can stretch further, meaning you can enjoy more of your life in Brisbane.

### **The Olympic and Paralympic Games**

Brisbane gained official approval to host the 2032 Olympic and Paralympic Games in 2021, and since then a lot of exciting infrastructure projects have been announced. Construction has already begun on a new metro system, the transformation of a former golf course into a walkable public space and new bridges to improve transport.

With all the investment flowing into the city, and into social improvements such as health, volunteering and community benefits, there's never been a better time to settle down in Brisbane - a place of opportunity for all and a truly contemporary global city.

### **Beautiful natural wonders**

Brisbane is Australia's nature capital, a modern, sustainable, open-air city with room to breathe. Home to some of the world's largest sand islands and ancient heritage-listed rainforests, unique escapes and adventures call from the mountains, the city and the bay.

Mount Coot-tha lookout is a great place to take in the picturesque skyline of Brisbane. It's only an 18-minute drive from Brisbane, and there's a cafe perched at the top where you can relax with a view.

The Roma Street Parkland is a great place to take a stroll close to the city centre. It's a beautiful spot to set up a picnic and walk through the vibrant gardens.

If you're looking for world-class surfing beaches within an hour of Brisbane, you'll definitely want to check out the Gold Coast.

Mount Glorious is roughly a 45-minute drive from Brisbane, and home to gorgeous swimming holes, hikes, lookouts and scenic drives.

## **4. Living in Brisbane**

Located on the east coast of Australia, Brisbane is the capital of Queensland – the Sunshine State – and is a warm, safe and welcoming city with a relaxed atmosphere and enviable subtropical outdoor lifestyle.

### **Moving to Brisbane**

Whether you are travelling from overseas or inter-state, moving to Brisbane is an exciting opportunity to get to know a new city. Before you arrive, there are plenty of resources you can explore so you'll feel like a local before you even touch-down.

Start exploring Brisbane:

Visit Brisbane

Brisbane City Council

Queensland website

Arriving a few weeks before the semester starts gives you time to get settled into your new home, explore the city, organise your GoCard (for transport services), and adjust to Brisbane's climate.

Orientation week, held one week before formal classes start, is a great way to get to know your campus, meet new people from all over the world, get involved in social activities and clubs and get advice from current students studying at QUT.

No matter where you're coming from, we look forward to welcoming you to Brisbane.

### **Cost of living**

During your first weeks in Brisbane, you should budget for approximately \$2,500AUD to get yourself set-up in your accommodation, stock up on food and organise your transport card. After that, you can budget for approximately \$500 a week for rent, food, transport, utility bills and entertainment.

For your student visa, you will also need to meet financial requirements set by the Department of Home Affairs. Find out more about visa eligibility through the Department of Home Affairs website.

### **Weather**

The weather in Brisbane is fantastic, with an average of over 280 sunny days each year. We've got warm summers (up to 35 degrees celsius) and mild winters (as low as 10 degrees celsius), and a rainy season from December - April.

### **Transport**

It's easy to access both our campuses: Gardens Point in the Brisbane CBD and Kelvin Grove 2km north of the city.

### **Food**

Brisbane is a multicultural city, and you'll be able to find speciality supermarkets with all the ingredients you're familiar with. Supermarkets are also open 7 days a week, and you can explore weekend farmers' markets for fresh produce.

There are hundreds of restaurants in Brisbane, with diverse options from dozens of countries.

### **Culture**

Brisbane has a rich and diverse cultural life, with regular festivals, exhibitions and performances.

Brisbane has great cultural hotspots, like the Fortitude Valley and Sunnybank for authentic Asian markets and restaurants, as well as vibrant international communities from all over the world. A quarter of Brisbane's population was born overseas, and almost 20% of our households have a language other than English as their first language.

We're a culturally diverse city, and we celebrate dozens of international traditions and festivals each year including:

Chinese New Year

New Year Water Festival

Just an hour south of Brisbane is the famous Gold Coast with amazing beaches, amusement parks, and shopping. Just 1.5 hours north of Brisbane are the beautiful, quiet beaches of the Sunshine Coast.

There are endless things to explore in Queensland.

### **Queensland tourism**

Brisbane is also within easy travel distance of Australia's other major cities and attractions, as well as only being a short flight from great international travel destinations like New Zealand, Bali, and South-East Asia.

### **Paying taxes**

If you work and earn money in Australia, you must pay taxes. When you're working, your employer will take money from your wages to pay tax.

You'll need to apply for a tax file number from the Australian Taxation Office (ATO). If you're studying in Australia for less than 6 months, you might not be eligible for a tax file number. You'll need to keep your tax file number secure and not share it with anyone.

When you apply for a tax file number, make sure that you use your Australian address if you're studying here for more than 6 months.
