

NJ CRANIOFACIAL CENTER

● ● ●

The [NJ Craniofacial Center](#) comprises a compassionate team of board-certified surgeons, doctors, nurses, and therapists committed to enhancing the lives of children affected by craniofacial anomalies. Every year, we provide care for numerous children suffering from conditions like cleft palates, tumors, plagiocephaly, craniosynostosis, among others.

About Us

The NJ Craniofacial Center is committed to offering unparalleled and tailored care for pediatric craniofacial conditions. Our primary goal is to uplift the health and vitality of children by ensuring timely and accurate diagnoses, all-encompassing treatments, and making families an integral part of the therapeutic journey. We acknowledge the distinctiveness of every child and their family, emphasizing the importance of guidance and learning throughout the path to healing.

Our Specialization

Cleft Lip and Palate Repair

At the NJ Craniofacial Center, we specialize in expert cleft lip and palate repair, combining advanced techniques with compassionate care. Our dedicated team ensures personalized treatment, prioritizing the well-being and aesthetic outcomes for each child, and guiding families through every step of the healing journey.

Craniosynostosis

At NJ Craniofacial Center, we specialize in diagnosing and treating craniosynostosis. Our expert team provides comprehensive care, ensuring children's optimal head shape and brain development. With cutting-edge techniques and a patient-centered approach, we're leaders in craniosynostosis management.

Ear Disorder

At NJ Craniofacial Center, we specialize in diagnosing and treating ear disorders. Our dedicated team employs advanced techniques to address pediatric craniofacial-related ear issues, ensuring optimal hearing and structural outcomes. Families trust us for our expertise and comprehensive approach to children's ear health. ●●●

Plagiocephaly

At NJ Craniofacial Center, we specialize in diagnosing and treating plagiocephaly, prioritizing personalized care. Using cutting-edge techniques, our dedicated team ensures children receive the best interventions, guiding families through the journey to optimal head shape and overall well-being.

Torticollis

At NJ Craniofacial Center, we expertly diagnose and treat Torticollis, prioritizing personalized care and family support in every child's healing journey.

Myoeloid Syndrome

Experts in Myoeloid Syndrome diagnosis, treatment, and family-centered care. Elevating children's health and recovery journeys.

Endoscopic Surgery

NJ Craniofacial Center offers advanced endoscopic surgery, ensuring minimally invasive, precise treatment for craniofacial anomalies with faster recovery.

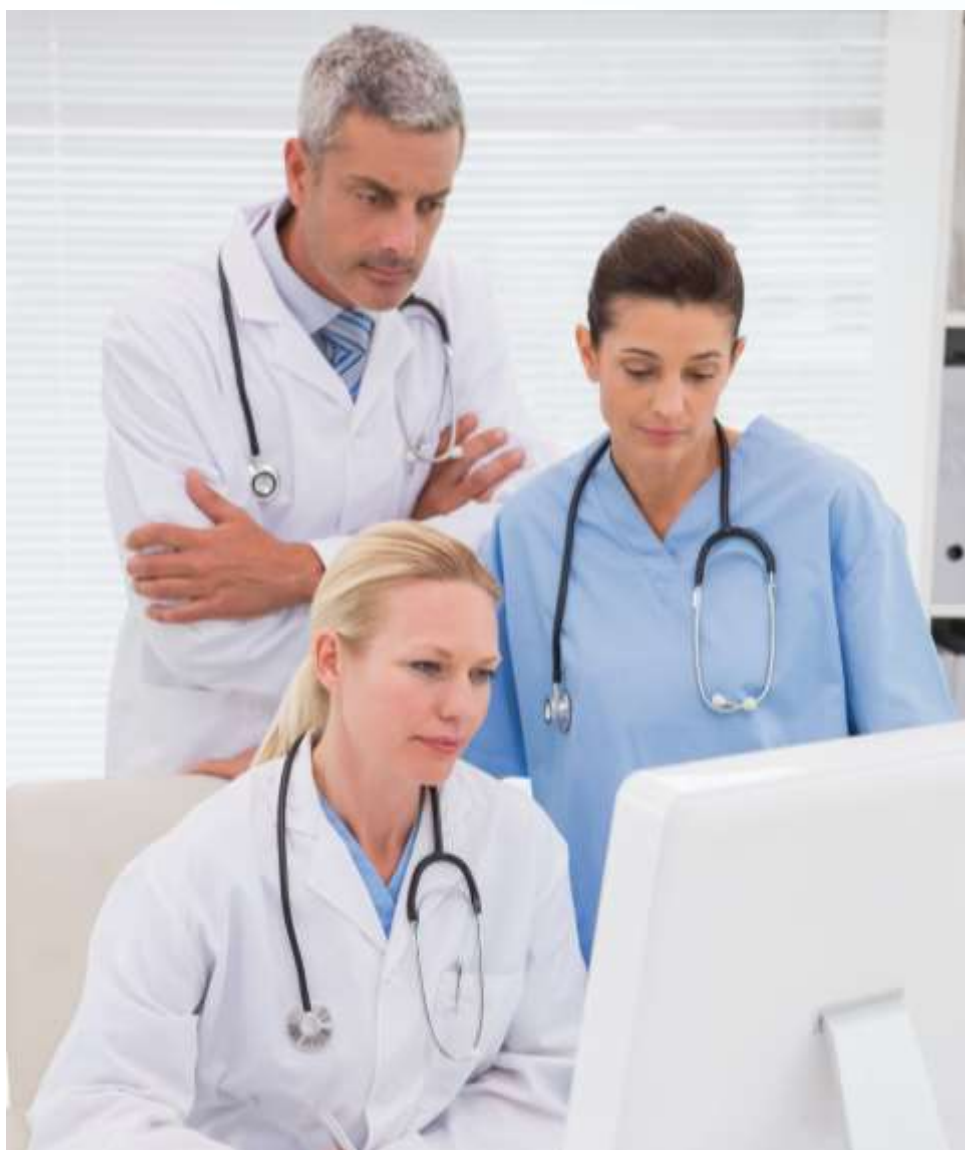

Our Team

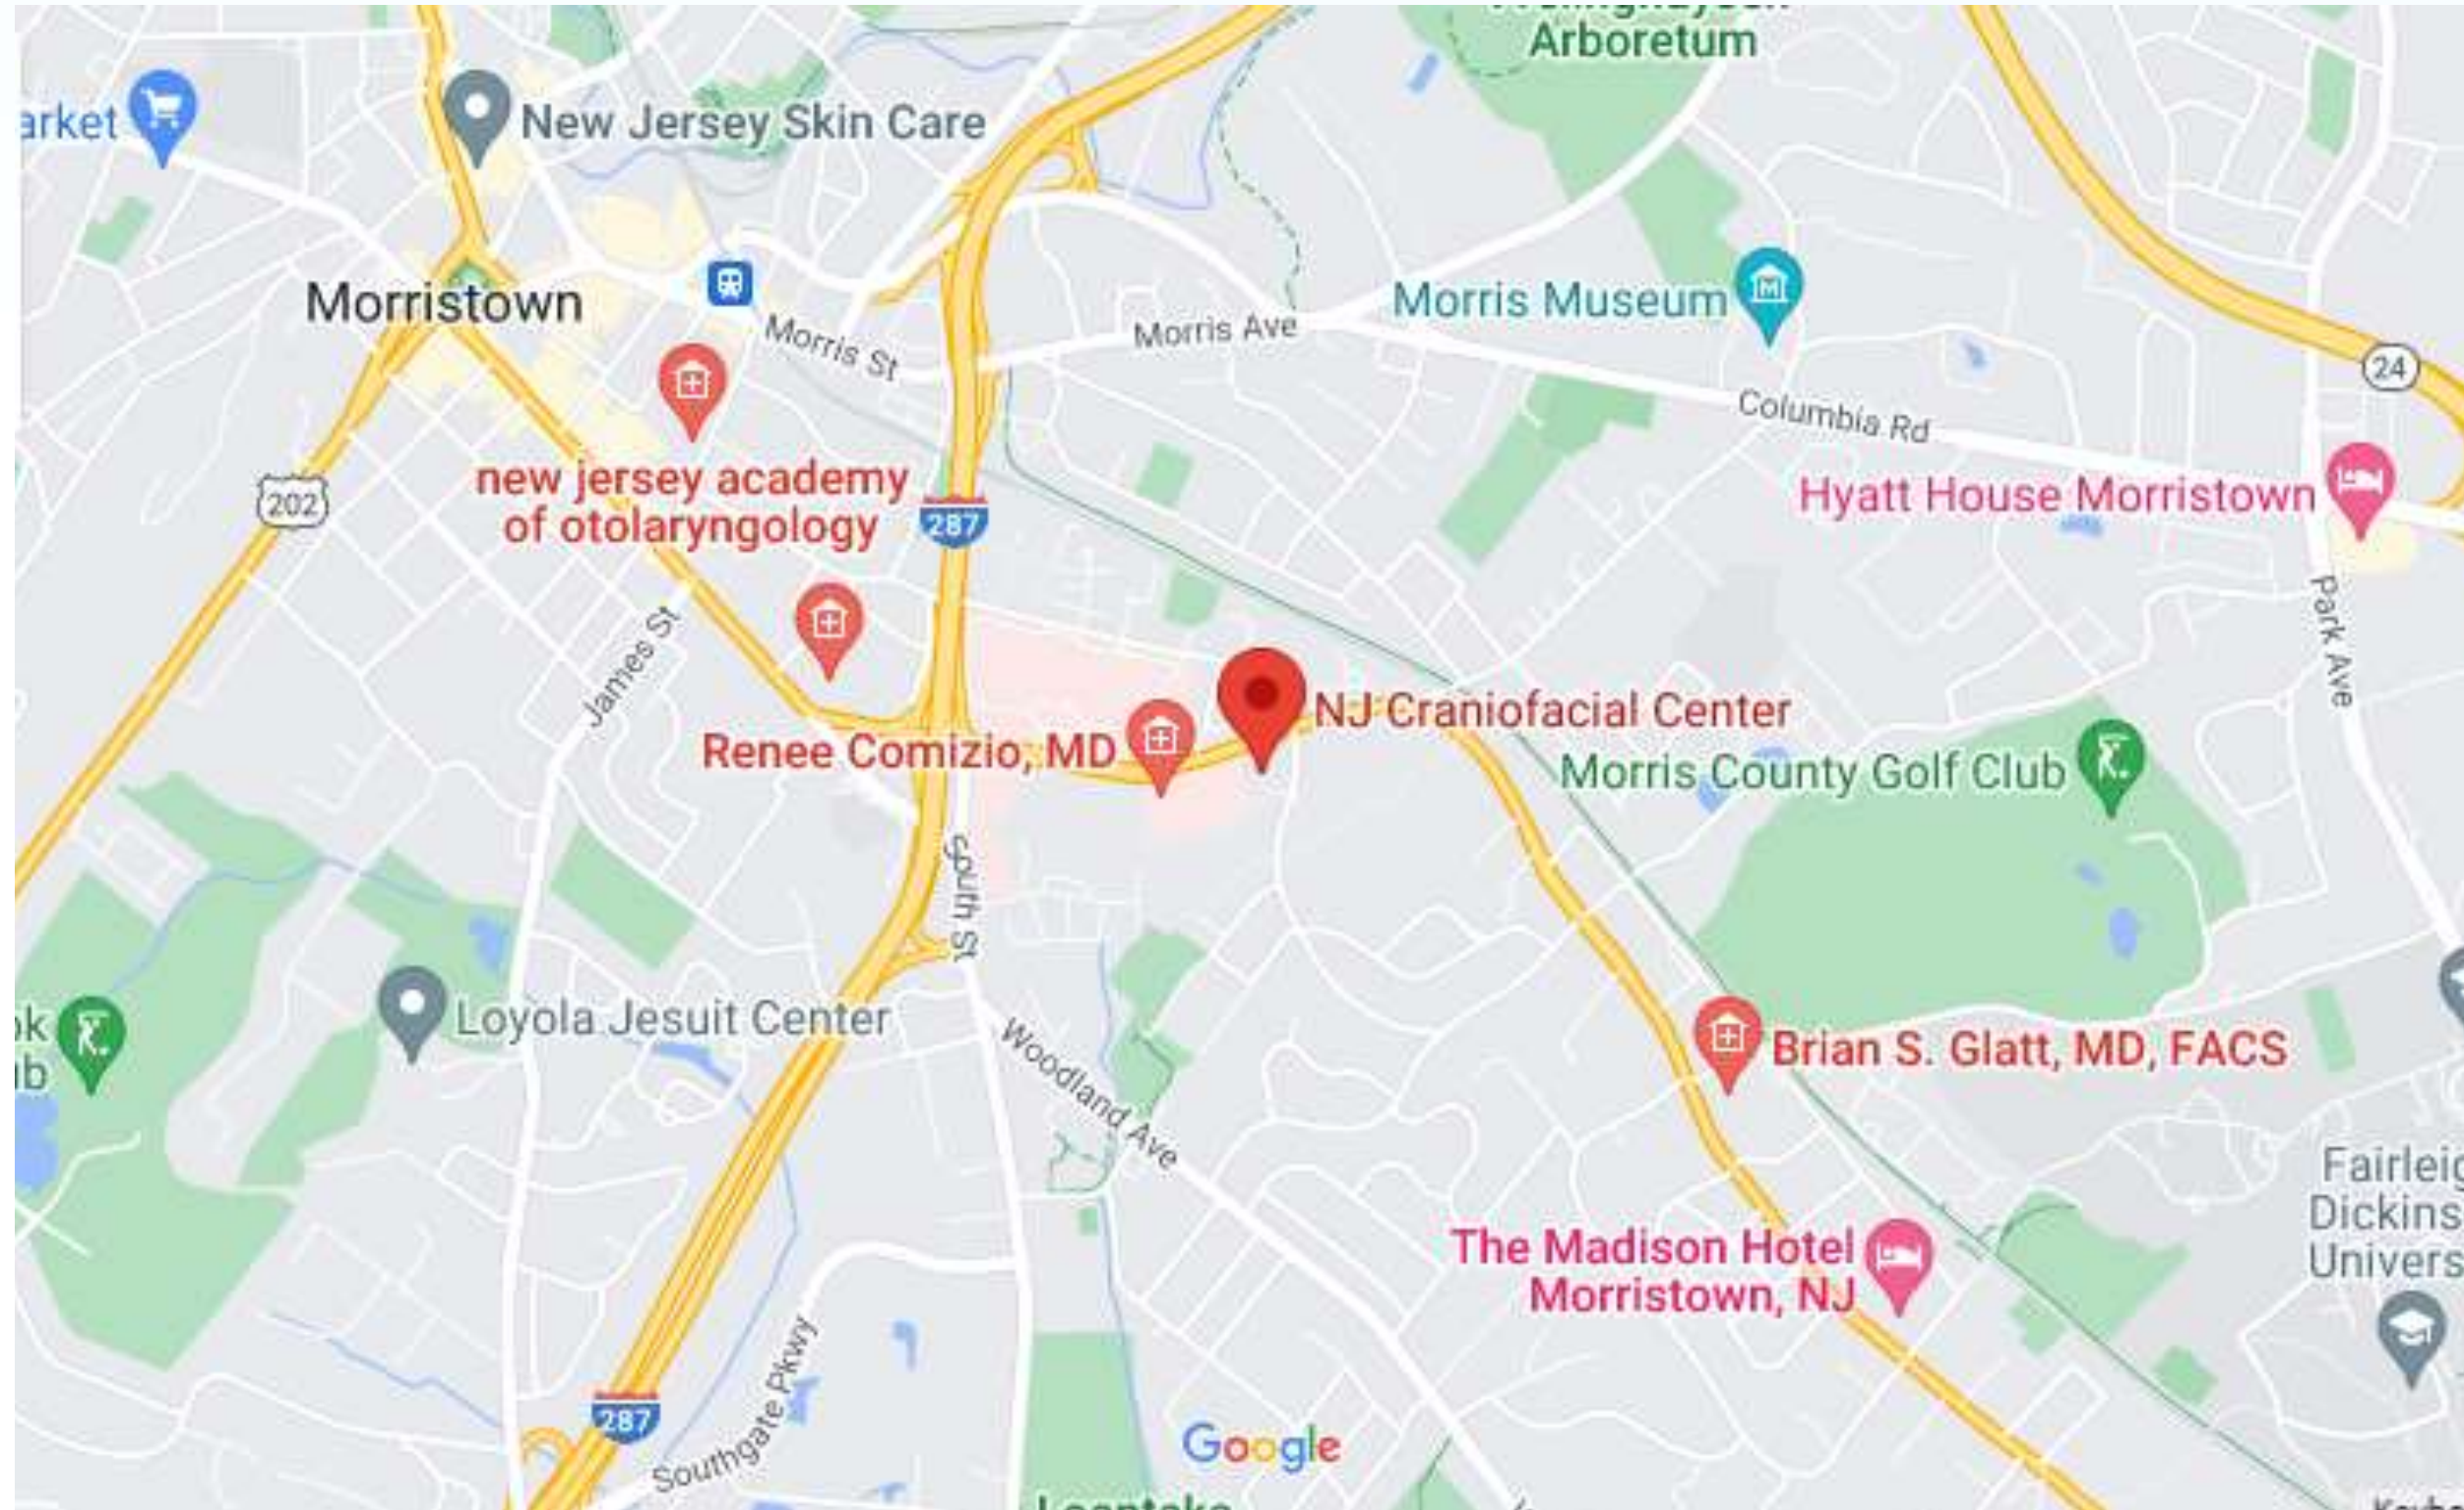

Our team offers comprehensive care in NJ and NY, with multiple offices. We provide telehealth, second opinions, expedited appointments for children. We support special needs kids, offer genetic and neuropsychological tests, and recommend accurate imaging for diagnosis.
