

SUNRISE
TECHNICAL GLASS LLC

GLASS FACTORY IN OMAN

ABOUT US

Look no farther than Sunrise Technical Glass if you're looking for laminated glass suppliers in your area. We have a reputation for manufacturing the best glass possible to meet a variety of requirements. We have a very dependable and committed supply chain staff to make sure the glass for the installations is carried carefully, and we execute our glass installations with care and consideration. Being the top suppliers of glass in Oman, we have followed the trend and suggested to our clients that they use laminated glass in their buildings because, in addition to its ability to withstand heat and moisture, it can also deter burglaries, giving buildings extra security. Additionally, because it has anti-shock properties, the glass will not shatter even under extreme pressure.
