

Access Governance Oracle

SafePaaS [access governance Oracle](#) offers comprehensive solutions for controlling user access and ensuring compliance across Oracle applications.

Visit us!

Segregation of Duties

Separating critical tasks with segregation of duties improves security and eases the possibility of someone misusing the control & inappropriate actions.

SAP Authorization

Our SAP authorization system grants users the access they need to perform their tasks while preventing them from accessing sensitive or restricted data.

Periodic Access Review

Ensure your organization's security with periodic access review. Our platform streamlines the process of often reviewing user access to sensitive data & systems.
