As far as kurtis are concerned, modern styles in plus size can be seen emerging. This can cater to women with various styles and preferences. In this blog, we will discuss the styles of plus-size kurtis so every woman can flaunt their uniqueness.

A-line kurtis

If you are looking for a timeless piece of clothing that matches every body type, it is the A-line kurti. It is an ideal choice for plus-size women as the silhouette created by such kurtis flares from the waist down, hugging your curves gently and not too tightly. Such kurtis are intricately designed with elegant patterns, prints, and even embroideries to add to

Anarkali kurtis

One of the most loved types of kurtis is the Anarkali kurti – it epitomises grace and sophistication with a knee-length or ankle-length kurti with a fitted torso and flared skirt. It has a royal feel and can add to your elegance. Choose colours that are vibrant and rich, and materials such as cotton for everyday use and georgette or silk for celebratory kurtis.

High low kurtis

If you want to add a modern trait to an otherwise traditional outfit such as a kurti, you can go for a high-low hem kurti. When it comes to looking for **<u>plus-size clothing online</u>**, such high-low kurtis are a popular choice because of the extraordinary silhouette it creates. With the front hemline shorter than the one in the back, it gives off a playful yet sophisticated vibe. For shorter women, it can also create an illusion of height, making you look taller.

Asymmetrical kurtis

Asymmetrical kurti is an unconventional take on the traditional kurti – with unique designs and atypical styles, this type of kurti is a great way to express your individuality when it comes to fashion. It adds a contemporary style to your attire, helping you make a bold statement with your fashion choices. The asymmetry makes your dressing style fun and chic while keeping you connected to your Indian roots. You can pair this kurti with a churidar or a straight pant to finish off your look.

Shirt-type kurtis

If you are looking for a fashion choice that perfectly blends Western and Indian fashion, you can opt for shirt-style kurtis. With a collar and buttondown fronts, such a kurti can be worn to the workplace or even on casual occasions. If you look for plus-size clothing online, you will find a number of options for shirt-type kurtis. These types of kurtis can be worn with leggings, jeggings, or even denim to complete your look.
