Cricut Access Download: Easy Process for All Devices!

Are you one of those crafters who want to take your crafting to the next level with a **Cricut Access download**? If so, then I am going to provide thorough knowledge about the process. So, make sure to stick to the entire blog to get the correct steps.
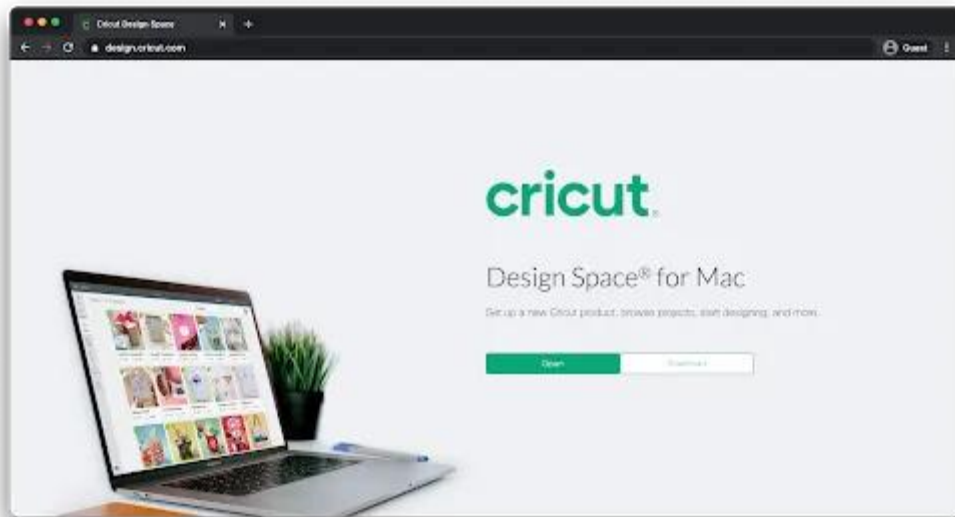

Cricut Access is a subscription plan that helps crafters unlock 1,200+ fonts, 1,000,000+ images, and a large number of customizable projects. However, you do not need to download a separate app to use it. If you have the Design Space app, then you can access your account after the subscription. Plus, the process of getting the plan is different for computers and mobiles. Let's begin the procedure now!

## Cricut Access Download on a Computer

The following guide will show how you can download the app and then get the subscription on your Mac computer.

## Step 1: Downloading the Software

1. Firstly, you need to go to the Cricut official support page and click on the **Apps** option.

2. Next, the **Design Space for Mac** page will appear on the display; click on the license agreement checkbox and select **Download** to begin the downloading process.

1. Before the download starts, a pop-up page will show on the display to ask where you would like to save the file after the download.

2. Once you specify a folder to store the file, select the **Save** button.

3. Now, the download process will begin; wait for the download to complete and then open the **.dmg** file from the browser.

4. You can also go to the chosen folder and double-click on the file to open it from there.

5. After that, you will jump to the next page; here, you should click on the Cricut icon and take it to the Applications folder to begin the installation.
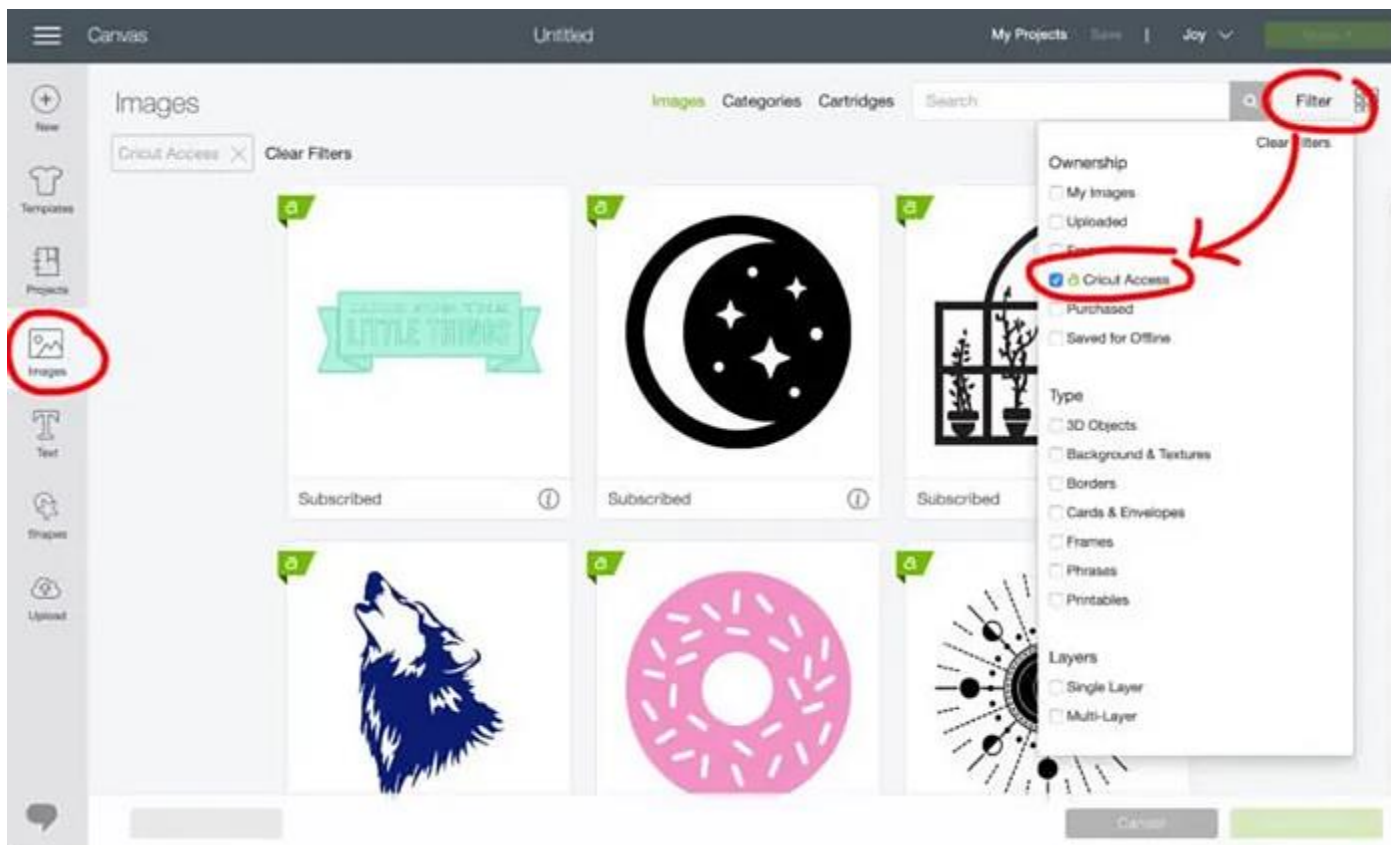

1. In order to launch the app, double-click on the "**cricut design space**" in the Applications folder. (You can create an app shortcut by dragging the Applications icon to the dock.)
