

# HOW TO CHOOSE THE RIGHT **HOLSTER** FOR YOUR FIREARM

## PERFECT FIT

Ensure the holster is designed for your firearm model for a secure hold and smooth draw.

## COMFORT & CARRY STYLE

Choose IWB, OWB, shoulder, or ankle carry based on comfort and usage.

## MATERIAL MATTERS

Leather molds over time, Kydex is rigid and durable, and nylon is lightweight but less secure.

## SAFETY FIRST

The holster must fully cover the trigger guard to prevent accidental discharge.

## QUICK ACCESS & RETENTION

Balance security with ease of draw by choosing the right retention level.
