What is Paint By Numbers?

Paint by numbers is a painting method where an image is divided into shapes, each marked with a number that corresponds to a specific color. By following the guide and filling in each section, even complete beginners can create stunning, professional-looking artworks with ease.

The concept may be simple, but the impact is profound. It allows people of all ages to express themselves creatively, practice mindfulness, and enjoy a screen-free hobby that results in a tangible work of art.
