

Benefits of Outsourcing Structural BIM Services

1

Cost Efficiency

- No in-house software, hardware, or staffing expenses
- Pay only for project-based requirements
- Fixed pricing avoids unexpected overheads

2

Access to Specialized Expertise

- Experienced structural modelers & detailers
- Expertise in Revit, Tekla, Navisworks, STAAD, ETABS
- Global best practices delivered to every project

3

Faster Project Delivery

- 24/7 production capability
- Quick turnaround on models & drawings
- Parallel workflows reduce bottlenecks

4

Improved Accuracy & Quality

- Clash-free modeling reduces errors
- Detailed rebar, steel, and concrete modeling
- Automated schedules & BOQs improve accuracy

5

Access to Latest Technology

- Always-updated software versions
- Access to automation tools & BIM standards
- Zero training required for your team
